PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable web applications with TypeScript, Node.js, React, and Next.js, focused on AI engineering. I integrate intelligent agents (OpenAI, Claude, LangChain) and automate business processes with n8n, accelerating development with Claude Code. I lead teams and products end to end, from architecture to production deployment.

EXPERIENCE

Project Leader

Aug 2025 – Present

Geeks5g · Medellín, Colombia

- Lead the development of RankTitan, an AI-powered local SEO platform built on the Google Business Profile API, featuring automated reports, heatmaps, and rank tracking; I coordinate the technical team and define the architecture.
- Lead Social Hub, a multi-account social media management platform with native publishing via the Meta Graph API (Facebook/Instagram), automatic token refresh, email/SMS notifications, and continuous deployment (CI/CD).
- Manage infrastructure on VPS servers (deployment, monitoring, and maintenance), ensuring operational continuity of services.

Full Stack Developer

Feb 2025 – Aug 2025

C-Pocket

- Designed and built AI agents with LangChain integrated with LLMs to automate conversational and business workflows.
- Built full stack web applications with Node.js, Next.js, and MySQL, integrating multiple payment gateways into the checkout flow.
- Automated operational processes with n8n, eliminating repetitive manual tasks and improving team efficiency.

Full Stack Developer (Freelance)

Jan 2024 – Jan 2025

Independent client · Streaming COL

- Built an end-to-end e-commerce platform with Next.js, Node.js/Express, and MySQL: product catalog, categories, order management, and payments.
- Implemented admin authentication, data validation with Zod, file handling with Multer, and email notifications with Nodemailer; UI built with Chakra UI.

Full Stack Developer (Internship)

Jan 2024 – Aug 2024

SENA – National Learning Service

- Developed and maintained features for the PRACTICAS-CTM project for the institution's internship department, optimizing processes and fixing issues.

SELECTED PROJECTS

- Pocki** — Intelligent WhatsApp chatbot with Node.js, Meta WhatsApp API, n8n, ChatGPT, and MySQL that automates replies and handles queries in real time.
- ScriptCraftHost** — Hosting and rental platform for dedicated Minecraft servers with Next.js, Node.js/Express, Socket.io, Docker, SSH2, and PayPal.
- VISIONWEB** — Real-time peer-to-peer video-call social network with Socket.io, Simple-peer (WebRTC), Node.js, Next.js, and SQL Server. [View repository](#)

EDUCATION

Software Engineering

Feb 2025 – Present

Politécnico Grancolombiano

Software Analysis & Development (Technologist Degree)

Apr 2021 – Aug 2024

SENA – National Learning Service

TECHNICAL SKILLS

Languages & Frontend: TypeScript, JavaScript, React, Next.js, Vite, Chakra UI

Backend: Node.js, Express.js, NestJS, REST APIs, Socket.io, WebRTC

Databases: MySQL, SQL Server, MongoDB

AI & Automation: OpenAI API, Claude (Anthropic) API, LangChain, Claude Code, n8n

DevOps & Integrations: AWS, Docker, CI/CD, VPS, Git, GitHub, Meta Graph API, PayPal, Zod, Nodemailer
